

Ascenty

A Digital Realty and Brookfield Infrastructure JV

CAMPINAS DATA CENTER

Campinas Data Center

Campinas is Latin America's largest technology hub – one of the reasons why Ascenty chose the city as a strategic location for its first Data Center, opened in 2012. Designed and built with the latest technology available, the Campinas Data Center offers all of the infrastructure your company needs to expand.

Data Center is the perfect choice of an efficient and safe facility for your company: an environment capable of guaranteeing redundancy in all systems – including energy, HVAC, security and connectivity – in addition to offering scalability for your business.

**Av. Pierre Simon de Laplace, 1211 – Techno Park.

About Ascenty

Ascenty, a Digital Realty and Brookfield company, is the largest connectivity and data center service provider in Latin America, currently managing 28 data centers in operation and/or construction in Brazil, Chile and Mexico, interconnected by 5,000 km of proprietary fiber-optic network.

The company was established in 2010 and builds and operates world-class data centers serving the world's largest cloud and technology providers, as well as other customers in the finance, retail, industrial, healthcare and service industries. To support the company's expansion, Ascenty is backed by its shareholders which include Brookfield Infrastructure Partners, a Canadian asset management company and Digital Realty, the world's largest data centers provider with 290 data centers located in North America, Europe, Latin America, Asia and Australia.
