A Digital Realty and Brookfield Infrastructure JV

BOGOTÁ CAMPUS

Bogotá Campus

Colombia was chosen to host two large and important new Ascenty Data Centers due to its strategic location and to meet the growing demands in information technology, in addition to the fact that the country's energy matrix is mostly composed of clean energy sources.

Altogether, the Colombia data centers have a total power capacity of 24 MW and a total area of 18,000 m².

Besides the high quality and redundancy of the infrastructure, the Data Centers offer excellence in connectivity, by means of their own electric substation.

+ information on our Data Center

CONNECTIVITY

- Data Centers Carrier Neutral.

SECURITY

- 24/7 Monitoring using CCTV cameras with high-definition automatic movement detection.
- Dual authentication for access control using biometric and magnetic cards.

POWER

- Tri-bus redundancy system (three power lines servicing each data hall).
- Dual diesel fuel storage tanks with 48 hours of fuel autonomy without refueling.

COOLING

- Isolated technical corridors for equipment maintenance.
- Dual coil cold water chiller system.

Data Center Solutions

- ▶ Colocation
 - Racks
 - Cages
 - Área Dedicada
- ▶ Soluções Complementares
 - Smart Hands
 - Work Areas
 - Soluções de Implementação
 - Disaster Recovery

Connectivity

- ▶ Internet
 - Banda IP
 - Link IP
 - Anti DDoS
- ▶ Interconexão
 - Cloud Exchange
 - Internet Exchange Point (IXPs)
 - Cross Connect
- ▶ Telecom
 - DWDM
 - MPLS
 - Lan to Lan
