

Campus Bogotá

World-class infrastructure to support a promising market.

Colombia was the fourth country chosen by Ascenty to host its data centers. With an energy matrix composed mainly of **clean** sources, the country was selected to host two large sites due to its strategic location and to meet the growing demands for information technology.

Colombia is considered a **new strategic market for the data center sector**.

According to the consulting firm Arizton, the data center market in Colombia was valued at **USD 560 million** in 2023 and is expected to reach **USD 890 million** by 2029.

Colombia
2 | Bogotá

 **20 MW** of total energy

 **18.500 m²** total area

Why choose the Bogotá Campus?

- **Carrier-Neutral Ecosystem:** our data centers are carrier-neutral, offering flexibility of choice, redundancy, and optimized uptime.

Infrastructure

Security: we provide protection for growth in the digital age.

- Our facilities boast secure physical structures monitored by our specialized team.
- Access control features dual authentication, biometrics, and magnetic card systems.
- CCTV circuits include motion detection, recording, and digital storage.
- 24x7 monitoring.

Power: robust blackout-proof systems.

- Our data center solutions feature redundant and reliable distribution.
- And it includes our own substation.
- Diesel generators provide 48 hours of autonomy without refueling.

Refrigeration: sustainable and efficient maintenance.

- We are committed to energy efficiency, reducing consumption and costs.
- Segregated corridors support equipment maintenance.
- And a chilled water system with air chillers is utilized.

Driving your digital evolution with reliability and security

Ascenty's quality is certified by leading industry bodies, ensuring continuity for your business.

Ascenty: where data meets and connects

Ascenty, a Digital Realty and Brookfield company, is the largest connectivity and data center service provider in Latin America, currently managing 36 data centers in operation and/or under construction in Brazil, Chile, Mexico and Colombia, interconnected by 4,000 km of proprietary fiber-optical network.

The company builds and operates world-class data centers serving the world's largest cloud and technology providers, as well as other customers in the finance, retail, industrial, healthcare and service industries. To support its expansion, Ascenty relies on its shareholders – Brookfield Infrastructure Partners, a Canadian asset management company, and Digital Realty, the world's largest data center company.

In 2024, Ascenty began offering ServiceFabric®, Digital Realty's orchestration platform, to support orchestration between applications, AI and high-performance workloads, clouds, and more than 500 data centers worldwide. To learn more about Ascenty, [visit the website](#).

100% infrastructure availability SLA.

Consistently achieving excellence in NPS (Net Promoter Score) for **over 5 years**.

4,000 km of proprietary optical fiber.

Total area of over **405,000 m²**.

100% carbon neutral and powered by **100% renewable energy**.

Globally interconnected data center ecosystem.

Integrated solutions for **hybrid IT** infrastructure.

Simplified compliance: data centers certified with **major industry standards**
